

Latin Music Awards Kentucky

Latin Music Awards Kentucky is honored to have in our community great leaders and educators that have impacted and changed positively our city. Michael Tracy is a leader, musician and educator that has enormously impacted our Latin music community. He has contributed to recruit and developed talented Latino musicians from all Latin America, created different music programs and open the door to many Latino students in Kentucky. This has enriched our community, bringing diversity and inclusion while also connecting different cultures and nationalities in our city. Our LMAKY president Israel Cuenca, from Ecuador has been one of the beneficiaries of his international outreach programs. He has become who is today thanks in part to the leadership and music opportunities that Michael Tracy with the school of music at UofL, continue doing in our region. Michael Tracy has impacted positively our Latino music community and his music and legacy will continue growing here in Kentucky and internationally. We're honored to give him for the first time *"The Award for Outstanding Leadership and Outstanding Contributions to our Latino music community in Kentucky"* We're honored to know him and have the chance to see his work and contributions. We're sure that we'll continue seeing his great legacy for many generations to come.

Thank you, Mike!
